Founded in 1964

Adriano P. Roberti, an Italian immigrant, came to America with thirty-three dollars of dimes in his pocket.

"Grade 6 Makers"

One of two remaining in America, Adrian Jules has won more ***Blue Ribbons for Excellence*** *from the CTDA than has any other American Clothing Maker.*

Family Operated

Adrian Jules ranks as the longest-running, family-owned maker of men's and women's custom-bespoke, made-to-measure and ready-to-wear clothing in America.

Third Generation

Led by our second and third generation, we take the best of the new and combine it with our time-tested traditional approaches.

Advanced Technology

Introducing new technology and an expanded interior space that will create an enhanced customer experience for our clientele.

More Than Just A Garment

Your custom suit should be an extension of the man wearing it. A suit from Adrian Jules is more than just a garment; it's a representation of your lifestyle.

THE WEDDING COLLECTION

An outfit that is custom-tailored for your special day and can be worn for a lifetime.

LD

A bespoke garment for all of the special moments in your life.

“Make sure your custom suit is as unique as the person you're marrying.”

SPORT COATS & SUITS

SPORT COATS & SUITS

A custom-made garment matched perfectly in spirit and shape to the person who wears it.

The simplest of details can make the biggest impact.

SPRING & SUMMER COLLECTION

With the changing of seasons, it is always important to dress accordingly.

In the summer, we suggest ***Deconstructed Jackets.***

This is an easy way to soften your garment. It will make it much cooler for the warmer months.

Lighter colors and linen blends should fill your closet in the warmer months.

Linen blends are some of the most breathable and relaxed fabrics you can own for the summer.

When it comes to colors, try yellow, white, turquoise, light pink or orange.

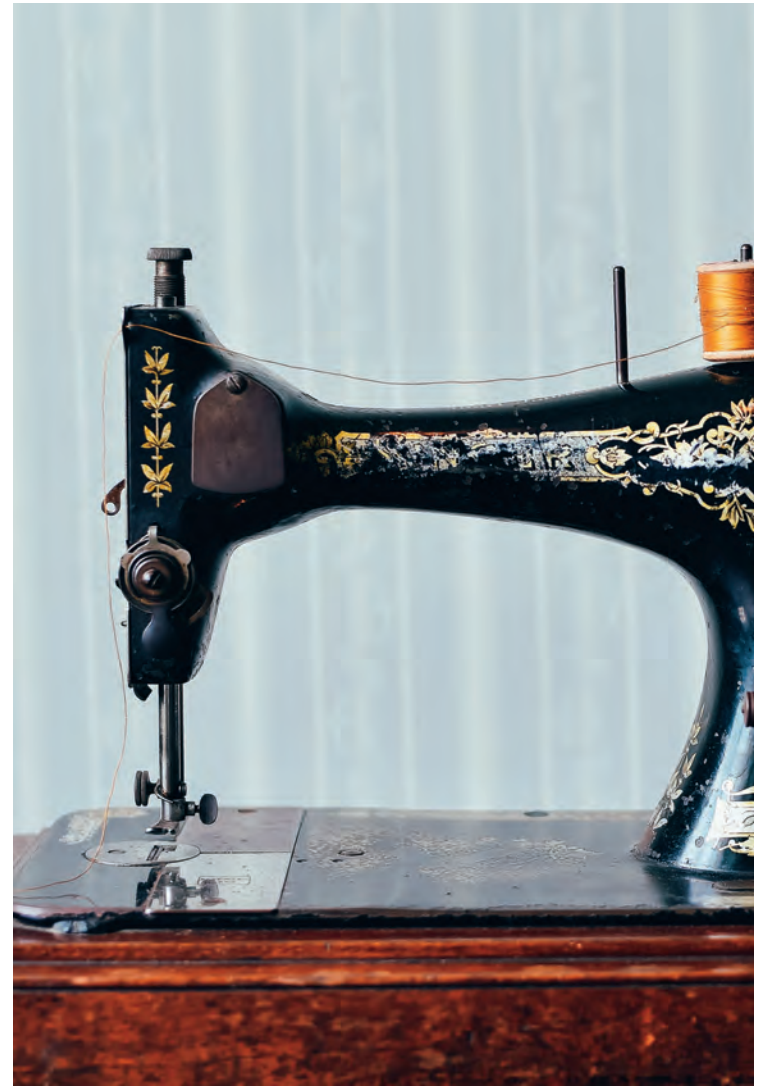
"As you wear your full canvas garment more, you'll notice that it starts to mold to your shape. This leaves you with a more comfortable garment as time goes on."

A custom-made sport coat is the calling card of the person wearing it and demands the pinnacle of fit.

*Exclusively made for **you** in the USA*

CUSTOM SHIRT COLLECTION

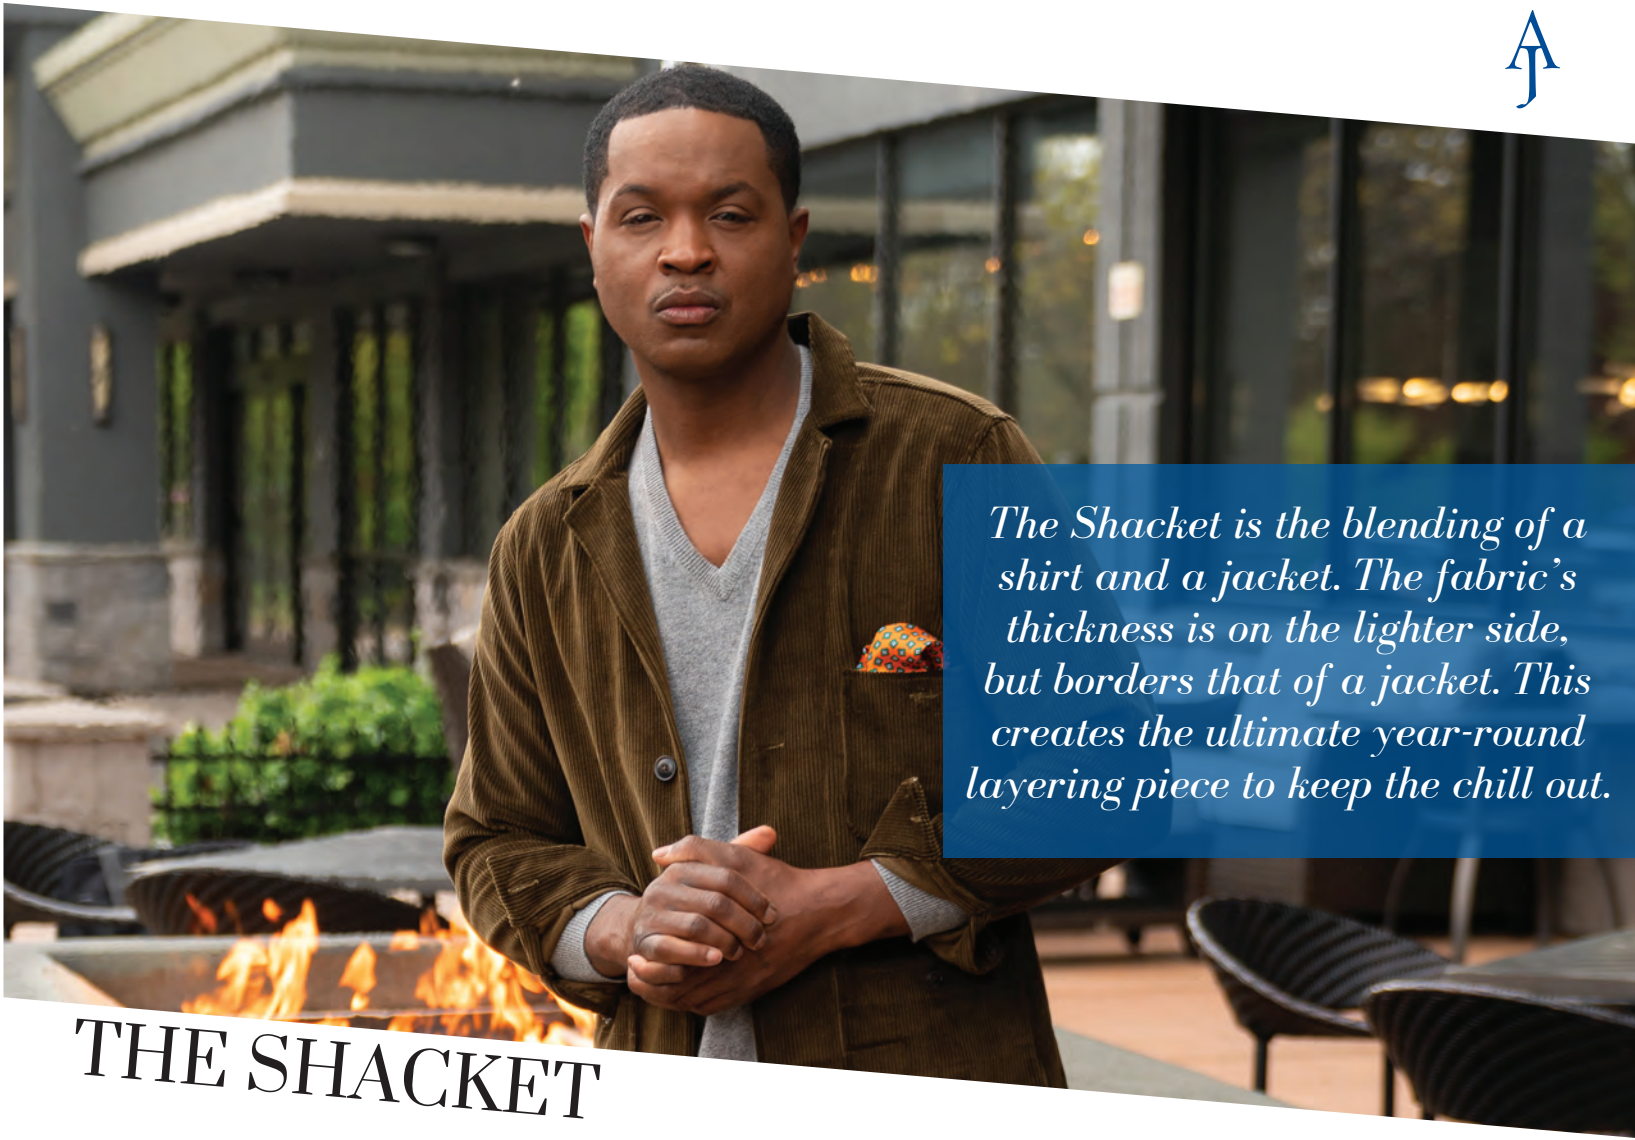
Your Adrian Jules Custom Shirt will bring unsurpassed comfort in a design that will highlight your personal attributes.



FALL & WINTER COLLECTION

SAFARI JACKET

The fashion world today recognizes that the Safari Jacket's versatility perfectly marries the art of tailoring with the edgy designs of streetwear.



The Shacket is the blending of a shirt and a jacket. The fabric's thickness is on the lighter side, but borders that of a jacket. This creates the ultimate year-round layering piece to keep the chill out.

THE SHACKET

Fall is the perfect time to start layering your looks. A custom vest is a simple way to elevate your outfit.

This model is a traditional smart double breasted topcoat that is worn at or below knee length. It is formal enough to be worn over a suit, but also versatile enough to be paired with jeans and turtlenecks.

A super lightweight deconstructed model that pairs perfectly with jeans or a five-pocket pant. Add a scarf to accentuate the outfit.

CUSTOM SUEDE JACKETS

THE CAR COAT

A softer take on the traditional look. Your modern day car coat can be worn over a suit or with a jacket and jeans.

THE MODERN DAY GENTLEMEN'S TOPCOAT

An Italian twist on a classic American style. This model possesses the poise and elegance one desires in a topcoat.

Great for a night out or a midday stroll, The Gentlemen's Topcoat is an essential part of anyone's wardrobe.
