

A still life composition featuring a mannequin on the left with a dark, draped fabric over its shoulder. In the foreground, a wooden table holds a vintage sewing machine, an open pattern book, a yellow measuring tape, and a pair of scissors. The background is dark, creating a dramatic effect.

Founded in 1964

Adriano P. Roberti, an Italian immigrant, came to America with thirty-three dollars of dimes in his pocket.

"Grade 6 Makers"

*One of two remaining in America, Adrian Jules has won more **Blue Ribbons for Excellence** from the CTDA than has any other American Clothing Maker.*

SPRING & SUMMER COLLECTION

With the changing of seasons, it is always important to dress accordingly.

*In the summer, we suggest
**Deconstructed
Jackets.***

This is an easy way to soften your garment. It will make it much cooler for the warmer months.

Lighter colors and linen blends should fill your closet in the warmer months.

Linen blends are some of the most breathable and relaxed fabrics you can own for the summer.

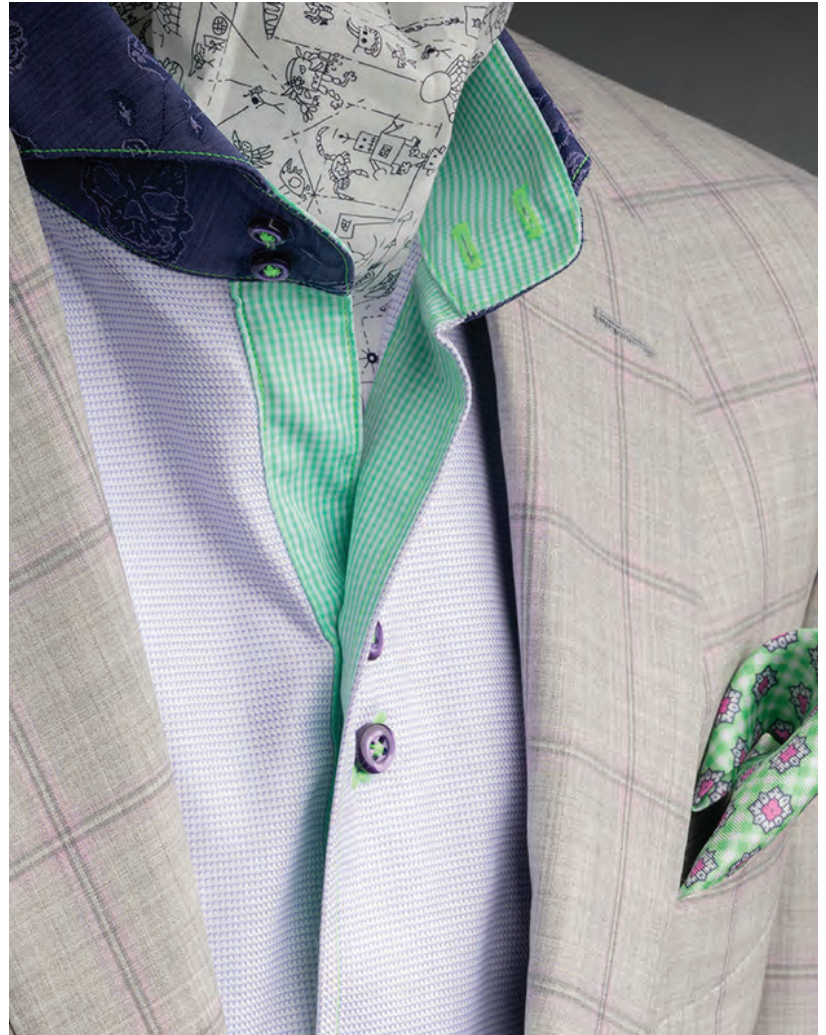

When it comes to colors, try yellow, white, turquoise, light pink or orange.

“As you wear your full canvas garment more, you’ll notice that it starts to mold to your shape. This leaves you with a more comfortable garment as time goes on.”

*A custom-made sport coat is
the calling card of the
person wearing it and
demands the pinnacle of fit.*
